CELEBRATING
15 YEARS
IN THE FIELD OF EDUCATION

About The Group

15 years back, we saw a dream. A dream to create a school where leaders are born. A school where the children of today are encouraged to discover their true calling and realise their true potential. And above all, be what they want to be. To turn this into reality MMGS team has gone way beyond being a school.

Mothers' Mount School is one of India's leading institutions which is spearheading the educational revolution in India. We are a group of co-educational pre-primary, primary and secondary schools in Delhi since 2002.

We stand at the frontier of innovative education, relentlessly building a brand of quality and excellence in India.

Mothers' Mount inspires its students to dream big and carve their signature on the planet by being global citizens. We understand the changing needs of education in the 21st century and take the challenge of giving students varied learning experiences and opportunities to make them competent and moral individuals. Education at Mothers' Mount is a three way process among the students, parents and the school. Learning initiated at school, connected through home and implemented by family in the real world.

We were the 1st school in India to participate in Google expedition programme. We also got awarded as "The Most Promising Play School" in Delhi in 2016 & received Bharat Excellence Award in May 2017.

Besides the academic excellence, we also encourage co-scholastic activities.

We believe in celebrating diversity by fostering a sense of belonging and acceptance for all children regardless of family structure and cultural background by means of innovative and structured programmes to drive education.

OUR PEDAGOGY

Mothers' Mount Global School is a progressive preschool with seamless class routines that are designed to keep the individual learning goals of each child in mind. No child is hurried through an activity, be it playing, colouring, eating or settling into school. Our age-appropriate curriculum focuses on the all-round development of the child, encompassing the following areas:

Cerebral development: critical thinking, in-depth understanding, inquiry, creativity, recollection, and application

Social development: positive personal relationships, effective communication, trust and belief in the goodness of others, desire to help, and a sense of identity

Emotional development: self-belief and confidence, self-control, self-motivation, creative interests, and passion for lifelong learning

Physical development: healthy practices (diet and exercise), personal care, fitness classes, yoga and hygiene, fine and gross motor development

Spiritual development: feeling at one with nature, the universe, and the self. Children learn to be one with nature as they share their environment with birds and butterflies.

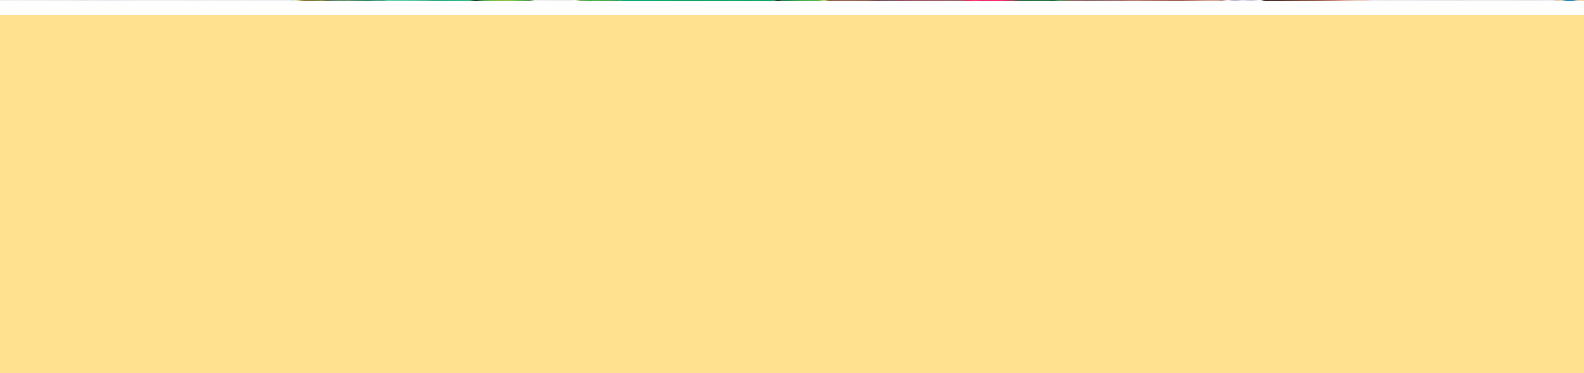

The Overall experience at the school is conducive to growth and all-round development of the child, nurturing all aspects of the personality - physical, intellectual, linguistic, emotional, social, psychological and spiritual.

EARLY LEARNING PROGRAMME

A great place
to be **ONE**

Mother's LAP-

A mother toddler programme age- 10 months - 24 months

A fun- packed adult accompanied programme developed for toddlers to enhance their coordination & perception skills and enrich the mother toddler relationship.

We provide a safe nurturing environment where children are free to move, play & explore. Make your little one jump, run , roll & have a great time!

Mother`s LAP is a play- based curriculum focusing on the whole child while providing opportunities for social , emotional ,cognitive & physical development .

Individual growth will be emphasized in addition to focus on the basic concepts of letters, numbers ,shapes and colours through creative methods.

A great
place to
be **TWO**

Playgroup curriculum

The Playgroup Curriculum has been designed with great care, keeping in mind that this may be the first time a child is away from parents.

It aims to provide a smooth transition with customized "settling in" schedules, The teachers are specially trained to encourage children to develop a sense of comfort and confidence as they settle into school routines. Engaging activities in the classroom and outdoors add value and interest to each day with a wide range of specially chosen manipulatives and other learning materials.

Nature exploration, free play, creative corner, story time, art, music and movement, water and sand play and many such activities are what their day at the Mothers` Mount School will comprise of.

EARLY LEARNING PROGRAMME

A great place to be **THREE**

Nursery curriculum

Nursery children possess an ever expanding set of languages and social skills as they begin to settle down to the idea of being on their own. This confidence encourages them to be zealous explorers. Our Nursery curriculum aims to fulfill their quest for knowledge and enables them to have a better understanding of the world around them.

Various activities are used to introduce the concept of taking turns and sharing toys and games and to reinforce math and language learning, Art materials such as clay, crayons, markers, paints and collage materials are a creative favorite with most children in this age group, just as skipping ropes, tricycles and swings, etc. are for developing gross motor skills.

A great place to be **FOUR**

Kindergarten curriculum

By the time the children are in the Kindergarten, they have longer attention spans and are able to sit for longer periods of time. They also have more developed social skills, and are confident and eager to create new ideas and expand their imagination. They begin to experience themes and activities to broaden their horizons.

For our children, learning becomes a structured systematic course emphasizing recognition of capital and small alphabet through phonics and whole word recognition through sight reading.

- Introduce the concept of cause and effect
- Encourage children to express themselves in whole sentences
- Number identification and sequencing through numerical literacy tools

PRIMARY CURRICULUM

CLASSES II to V:- The academic year is divided into two semesters. A system of continuous and comprehensive evaluation through assignments and observational activities is followed. Besides this, two unit tests of 30 marks for each subject are conducted in both semesters. At the end of each term, an exam of 60 marks is conducted for each subject. In order to provide a rich academic experience, assignments have been prepared. The assignments provide students with valuable insights into the subject, which in turn allows concrete understanding of the same. Apart from academics, emphasis is laid on the overall development of the students, which is realized through various activities like Taekwondo, Chess, Yoga, Music, Art and Craft, Physical Education etc. These activities develop a positive self image in students by improving their skills and attitude.

Apart from striving for academic excellence, the school also aims to develop the latent talents in the students.

Students are also taken for field trips and excursions, which gives them a lot of practical knowledge and also enhances their understanding of the world around them.

MIDDLE & SECONDARY SCHOOL CURRICULUM

The main aim at this level is to provide in depth knowledge of the concepts. An extensive use of technology supplements classroom teaching, thereby making it interactive and thus enhancing comprehension.

The main aim at this level is to prepare students according to the CBSE curriculum. Result oriented teaching is imparted by experienced teachers targeting towards an excellent result. Students have the option to study any one language – Sanskrit, Punjabi or Hindi in classes VI, VII, VIII.

Homework given to students is a stimulating revision exercise generally in the form of worksheets. A lot of stress is laid at this stage on spoken English with emphasis on good pronunciation and diction coupled with excellent reading and writing skills.

Educational trips and excursions are organized on a regular basis to make learning fun and meaningful.

The curriculum at school aims to allow students to think intensively and critically.

EDUCATION BEYOND BOOKS

Activities promoting love for learning & building self confidence.

- Skype sessions across countries
- Excursions
- Intra & Inter School Events
- Class Activities
- Class Assemblies
- Workshop for Students

ADDITIONAL BENEFITS

Day Care

MMGS Day care is a happy home for your child with the embodiment of vitality, combining a perfect balance of learning, playing and fitness. Our dedicated and qualified staff ensures a cosy environment for your child to grow and develop her/his skills to the fullest.

ADMISSION

VISIT MOTHERS' MOUNT GLOBAL SCHOOL

We know that a phone call or visit to our website can't capture the feeling of walking into our campus and seeing it for yourself. We'd be happy to meet with your family and child to discuss our school, admission process and show you around our campus.

APPLICATION PROCESS

Mothers' Mount Global School offers rolling enrolment throughout the year as space is available, and aims to make the admissions process a pleasant and straight forward experience. Please note that admissions, meetings and school tours are available by appointment only. To enquire about availability of seats, please contact the Admissions Department at enquiry@mothersmountschool.com

To apply, please submit the following:

- Admission Form
- 4 photographs of the child in an envelope
- 2 sets of parent's photographs
- Birth Certificate issued by the MCD/appropriate authority. Original and photocopy of the same
- Immunization card

ADMISSION PROCESS

Step 1:

The parents may visit the school and meet the counsellors to complete the admission form. Each applicant is reviewed individually and independently.

Step 2:

Once the required forms and documents have been submitted, the Admissions Office and the appropriate school administration will review the application file. Parents will then be notified by email of the outcome.

Step 3:

The Fee must be paid within seven (7) calendar days of receipt of the invoice. If the Fee is not received within 7 calendar days, priority will be given to other applicants.

Please note that submission of an Application Form does not entitle or guarantee admission.
